Cellular and Molecular Neurobiology

Vol. 16, No. 1 **February 1996**

CONTENTS

Spontaneous Firing of NG108-15 Cells Induced by Transient Exposure to Ammonium Chloride 1
V. C. Kowtha, H. J. Bryant, V. Krauthamer, K. H. Iwasa, and D. A. Stenger

Aging Does Not Affect Steady-State Expression of the Na^+/Ca^{2+} Exchanger in Rat Brain 11
Robert A. Colvin, Jon P. Walker, James Schummers, and Nancy Davis

Diurnal Variation of Corticotropin-Releasing Factor Binding Sites in the Rat Brain and Pituitary 21
Eberhard Fuchs, Jan-Christian Wasmuth, Gabriele Flügge, Gerald Huether, Raphael Troost, and Jürgen Beyer

Neural Control of the Expression of a Ca^{2+}-Activated K^+ Channel Involved in the Induction of Myotonic-like Characteristics 39
Beatriz U. Ramírez, Maria Isabel Behrens, and Cecilia Vergara

The PH Domain of Ras-GAP Is Sufficient for *in Vitro* Binding to $\beta\gamma$ Subunits of Heterotrimeric G Proteins 51
Ningzhi Xu, Omar Coso, Daruka Mahadevan, Antonio De Blasi, Paul K. Goldsmith, William F. Simonds, and J. Silvio Gutkind

The 21-Aminosteroid U-74389F Increases the Number of Glial Fibrillary Acidic Protein-Expressing Astrocytes in the Spinal Cord of Control and Wobbler Mice 61
Maria Claudia Gonzalez Deniselle, Susana L. Gonzalez, Gerardo G. Piroli, Analia E. Lima, and Alejandro F. De Nicola

Cells Expressing Preproenkephalin mRNA in the Rat Pineal Gland Are Not Serotonin-Producing Pinealocytes: Evidence Using *in Situ* Hybridization Combined with Immunocytochemistry for Serotonin 73
Xi-Tao Wang, George D. Pappas, Jacqueline Sagen, and James R. Unnerstall

Cellular and Molecular Neurobiology

Vol. 16, No. 2 **April 1996**

CONTENTS

Chromatin Structure of the MMTV Promoter and Its Changes During Hormonal Induction 85
Mathias Truss, Jörg Bartsch, Christian Möws, Sebastián Chávez, and Miguel Beato

Gonadal and Adrenal Steroids Regulate Neurochemical and Structural Plasticity of the Hippocampus Via Cellular Mechanisms Involving NMDA Receptors 103
Bruce S. McEwen

Estrogenic Control of Preoptic Area Development in a Carnivore, the Ferret 117
M. J. Baum, S. A. Tobet, J. A. Cherry, and R. G. Paredes

Steroid Imprinting and Modulation of Sexual Dimorphism in the Luteinizing Hormone-Releasing Hormone Neuronal System 129
Francisco José López, István Merchenthaler, Zsolts Liposits, and Andrés Negro-Vilar

Progesterone as a Neurosteroid: Actions Within the Nervous System 143
E. E. Baulieu, M. Schumacher, H. Koenig, I. Jung-Testas, and Y. Akwa

Neurosteroid Modulation of Native and Recombinant $GABA_A$ Receptors 155
Jeremy J. Lambert, Delia Belelli, Claire Hill-Venning, Helen Callachan, and John A. Peters

Membrane Receptors for Estrogen, Progesterone, and Testosterone in the Rat Brain: Fantasy or Reality 175
Victor D. Ramirez, Jianbiao Zheng, and Khawar M. Siddique

The Modulation of Brain Dopamine and $GABA_A$ Receptors by Estradiol: A Clue for CNS Changes Occurring at Menopause 199
Roger Bossé and Thérèse Di Paolo

Potential Neuronal Mechanisms of Estrogen Actions in Synaptogenesis and Synaptic Plasticity 213
F. Naftolin, C. Leranth, T. L. Horvath, and L. M. Garcia-Segura

Gonadal Steroids and Astroglial Plasticity 225
L. M. Garcia-Segura, J. A. Chowen, M. Dueñas, A. Parducz, and F. Naftolin

On the Role of Glucocorticoid Receptors in Brain Plasticity 239
Kjell Fuxe, Rochellys Diaz, Antonio Cintra, Maheep Bhatnagar, Barbro Tinner, Jan-Åke Gustafsson, and Luigi F. Agnati

Neuroplastic Changes in the Hypothalamic Arcuate Nucleus: The Estradiol Effect Is Accompanied by Increased Exoendocytotic Activity of Neuronal Membranes 259
A. Párducz, T. Szilágyi, S. Hoyk, F. Naftolin, and L. M. Garcia-Segura

Cellular and Molecular Neurobiology

Vol. 16, No. 3 **June 1996**

CONTENTS

Testosterone and Progesterone Metabolism in the Central Nervous System: Cellular Localization and Mechanism of Control of the Enzymes Involved 271
L. Martini, F. Celotti, and R. C. Melcangi

Antiprogestagen RU486 Prevents the LH-Dependent Decrease in the Serum Concentrations of Inhibin in the Rat 283
M. Tébar, C. Bellido, J. Th. J. Uilenbroek, and J. E. Sánchez-Criado

Sex Steroid Effects on the Development and Functioning of the Growth Hormone Axis 297
J. A. Chowen, L. M. García-Segura, S. González-Parra, and J. Argente

Novel Estrogen Feedback Sites Associated with Stress-Induced Suppression of Luteinizing Hormone Secretion in Female Rats 311
Kei-ichiro Maeda, Shoji Nagatani, Maria A. Estacio, and Hiroko Tsukamura

Estrogen Control of Central Neurotransmission: Effect on Mood, Mental State, and Memory 325
George Fink, Barbara E. H. Sumner, Roberta Rosie, Oliver Grace, and John P. Quinn

Brain–Corticosteroid Hormone Dialogue: Slow and Persistent 345
E. Ronald de Kloet, Nynke Y. Rots, and Alexander R. Cools

Gonadal Steroid Modulation of Neuroendocrine Transduction: A Transynaptic View 357
Rafael Alonso-Solís, Pedro Abreu, Ignacio López-Coviella, Guadalberto Hernández, Natalia Fajardo, Francisco Hernández-Díaz, Aniria Díaz-Cruz, and Alex Hernández

In Vivo Monitoring of Brain Neurotransmitter Release for the Assessment of Neuroendocrine Interactions 383
Manuel Mas, Jose Luis Gonzalez-Mora, and Luis Hernandez

Effect of Gonadotropin-Releasing Hormone on Estrogen Receptor Messenger Ribonucleic Acid Level in Perifused Pituitary Cells 397
F. Demay, C. Tiffoche, and M. L. Thieulant

Volume-Activated Chloride Channels in Neuroblastoma Cells Are Blocked by the Antiestrogen Toremifene 403
Mario Díaz

Rapid Stimulation of Striatal Dopamine Synthesis by Estradiol 411
Catherine Pasqualini, Valérie Olivier, Bernard Guibert, Odile Frain, and Vincent Leviel

Dopamine-Mediated Activation of the Human Progesterone Receptor 417
Alison J. Philpott and Mohammed Shahid

Hypersecretion of Follicle-Stimulating Hormone (FSH) on Estrous Afternoon in Rats Treated with RU486 in Proestrus 421
M. Tébar, A. Ruiz, and J. E. Sánchez-Criado

Interaction Among Alfaxalone, Pregnenolone Sulfate, and Two $GABA_A$ Agonists on Hippocampal Slices 427
S. SanMartin, F. Andrés-Trelles, L. Menendez, A. Meana, A. Hidalgo, and A. Baamonde

The Expression of Neural Cell Sialoglycoproteins Following Glucocorticoid Regulation of Sialyltransferase Activity In Vivo 433
Christine M. Coughlan, Jonathan R. Seckl, and Kieran C. Breen

The Neurosteroid Progesterone Increases the Expression of Myelin Proteins (MBP and CNPase) in Rat Oligodendrocytes in Primary Culture 439
I. Jung-Testas, M. Schumacher, P. Robel, and E. E. Baulieu

Action of Steroid Hormones on Growth and Differentiation of CNS and Spinal Cord Organoypic Cultures 445
A. Levy, M. Garcia Segura, Z. Nevo, Y. David, A. Shahar, and F. Naftolin

Cellular and Molecular Neurobiology

Vol. 16, No. 4 **August 1996**

CONTENTS

Tyrosine Hydroxylase-Negative, Dopaminergic Neurons Are Targets for Transmitter-Depleting Action of Haloperidol in the Snail Brain 451
Dmitri A. Sakharov, Elena E. Voronezhskaya, Leonid Nezlin, Michael W. Baker, Károly Elekes, and Roger P. Croll

Isolation and Characterization of the Highly Phosphorylated Repeat Domain of Distinct Heavy Neurofilament Subunit (NF-H) Isoforms 463
L. Soussan, A. Admon, A. Aharoni, Y. Cohen, and D. M. Michaelson

Expression of Platelet-Derived Growth Factor (PDGF) Receptor α-Subunit in Mouse Brain: Comparison of *Patch* Mutants and Normal Littermates 479
Frank X. Zhang and James B. Hutchins

Low Concentrations of Ouabain Stimulate Na/Ca Exchange in Neurons 489
Alex A. Saghian, Sinerik N. Ayrapetyan, and David O. Carpenter

Neuronal Isoform of Nitric Oxide Synthase Is Expressed at Low Levels in Human Retina 499
Chang-Shin Park, Cristina Gianotti, Roy Park, and Gopal Krishna

Myelin-Stimulated Macrophages Release Neurotrophic Factors for Adult Dorsal Root Ganglion Neurons in Culture 517
Naoshi Hikawa and Toshifumi Takenaka

Cellular and Molecular Neurobiology

Vol. 16, No. 5 **October 1996**

CONTENTS

Introduction 529
Dmitri A. Sakharov and Roger P. Croll

From Oocyte to Neuron: Do Neurotransmitters Function in the Same Way Throughout Development? 533
Gennady A. Buznikov, Yuri B. Shmukler, and Jean M. Lauder

Modulation of *In Vivo* Neuronal Sprouting by Serotonin in the Adult CNS of the Snail 561
Michael W. Baker and Roger P. Croll

Dopamine Regulation of Neurite Outgrowth from Identified *Lymnaea* Neurons in Culture 577
G. E. Spencer, K. Lukowiak, and N. I. Syed

Neuronal Signal Substances in Asexual Multiplication and Development in Flatworms 591
Maria Reuter and Margaretha Gustafsson

Pharmacological Model of Catecholamine Depletion in the Hypothalamus of Fetal and Neonatal Rats and Its Application 617
Jacques Bernabe, Evgenya Proshlykova, Anna Sapronova, Alain Trembleau, André Calas, and Michael Ugrumov

Tyrosine Hydroxylase-Containing Neurons in the Spinal Cord of the Chicken. I. Development and Analysis of Catecholamine Synthesis Capabilities 625
James A. Wallace, Audrey A. Romero, Anna M. Gabaldon, Victoria A. Roe, Sandra L. Saavedra, and Jerinda Lobner

Transient Expression of Neuropeptide Y (NPY) Immunoreactivity in the Developing Hamster Paraventricular Thalamic Area Is Due to Apoptosis 649
G. I. Botchkina, S. Lyubsky, and N. G. Hagag

Transient and Sustained Expression of FMRFamide-like Immunoreactivity in the Developing Nervous System of *Lymnaea stagnalis* (Mollusca, Pulmonata) 661
Elena E. Voronezhskaya and K. Elekes

Evidence for Site Selection During Synaptogenesis: The Surface Distribution of Synaptic Sites in Photoreceptor Terminals of the Flies *Musca* and *Drosophila* 677
I. A. Meinertzhagen and X. Hu

Modulation and Selection of Neurotransmitter Responses During Synapse Formation Between Identified Leech Neurons 699
Stefano Catarsi and Pierre Drapeau

1 235HI XL 1173 4/97 31249-200 NULE

Cellular and Molecular Neurobiology

Vol. 16, No. 6 **December 1996**
